CYBER1 Solutions   **Microsoft Security**

Unified SecOps with Microsoft & CYBER1 Solutions

As the threat landscape evolves with the increasing use of cloud services, cyber risks become more complex. With CYBER1 Solutions and Microsoft, streamline your security operations to gain visibility across your environment, detect real-time threats, and achieve your security objectives in hybrid and multi-cloud environments.

Cross-Platform Protection

Seamless security across cloud, on-premises, and hybrid environments, protecting data, identities, and devices.

Automated Threat Detection & Response

AI and SOAR automate threat detection and response, accelerating threat mitigation.

Threat Hunting & Investigation

Proactive threat hunting and deep investigation tools to detect, track, and resolve security incidents.

Enhanced Compliance & Governance

Integrated compliance management simplifies adherence to regulations, providing built-in auditing and reporting features.

60% Reduced risk of a material breach.

88% Reduced time to cyberthreat mitigation.

75% Freed time for security analysts for higher-value tasks

Comprehensive Coverage

Unified Security Operations Workshop

Get a customised assessment of your security operations, identify potential threats and vulnerabilities, and uncover ways to strengthen your organisation's security posture.

WHAT TO EXPECT

During this workshop, we'll partner with you to strengthen your organization's approach to unified security operations while helping you better understand how to prioritize and mitigate potential attacks.

Identify and respond to emerging threats with unified monitoring across your security environment.

Prioritise and mitigate risks using extended detection and response across endpoints, identities, and applications.

Optimise security operations for greater visibility and faster incident response times.

Leverage Microsoft Defender XDR and Microsoft Sentinel to enhance threat detection, investigation, and automated response.

Develop actionable next steps aligned with your operational needs and security objectives.

UNIFIED SECOPS SERVICES

- ✓ Microsoft Sentinel Deployment & Optimisation
- ✓ Automated Security Orchestration
- ✓ Threat Intelligence & Management

- ✓ Multi-Tenant Security Management
- ✓ Integration with IoT & OT Security
- ✓ Security Incident Management

READY TO LEARN MORE?

Contact us today to schedule a Unified SecOps Workshop and see how CYBER1 Solutions can help you streamline security operations and improve threat detection and response.
